Trend

BATHROOMS
EST. 2013

A family owned and managed business – designing, manufacturing and hand assembling bathroom furniture in the UK since 1996

QUALITY MATERIALS AND CONSTRUCTION, COMPETITIVE PRICING

Our range of Trend Bathroom furniture is manufactured in the UK by our experienced and knowledgeable production team. We understand that every piece of furniture that we make must add to our reputation for producing quality products that our customers are proud to have in their bathroom for years to come.

We use glue and dowel construction methods and each cabinet is made to order which means that only the holes that are required are drilled. Our Trend range is priced to delight whilst never sacrificing production standards or material quality.

SIMPLICITY IN PLANNING, EASE OF INSTALLATION

Our objective is to make life easy for you when choosing, designing and ordering your perfect bathroom furniture. We do this by having one price no matter which door front design and finish you choose. We focus on making our product range accessible and understandable by carefully curating our selection of accessories.

To help you make your choice of finish, you can order up to five FREE colour swatches to be delivered to your address.

When it comes to installation, our units are supplied with 200mm legs (loose) and wall hanging brackets fitted as standard, this means that everything is ready and in place whether the units are to be fitted with a plinth or wall hung.

QUICK DELIVERY, RESPONSIVE CUSTOMER SERVICE

We offer a fast turnaround time from receipt of order to delivery and work closely with our supply chain to ensure that our full range of products, from cabinets to doors, taps to handles, are ready to be delivered to you, on time and in full.

We have our own fleet of lorries driven by our drivers who are proud ambassadors for our company. We pride ourselves on our responsive and helpful customer service to resolve any issue quickly.

RANGE FRONT FINISHES

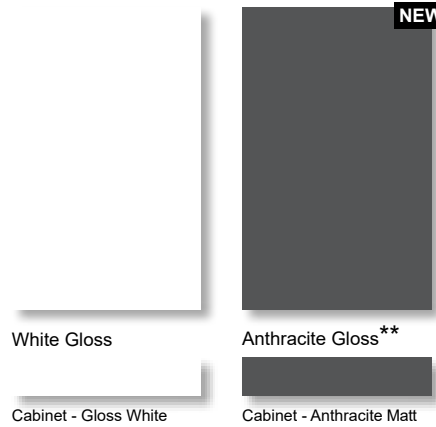

Foil Slab Doors

Flat Slab door in gloss & matt plain foil finishes with sharp radius edge.

Foil Range Specification

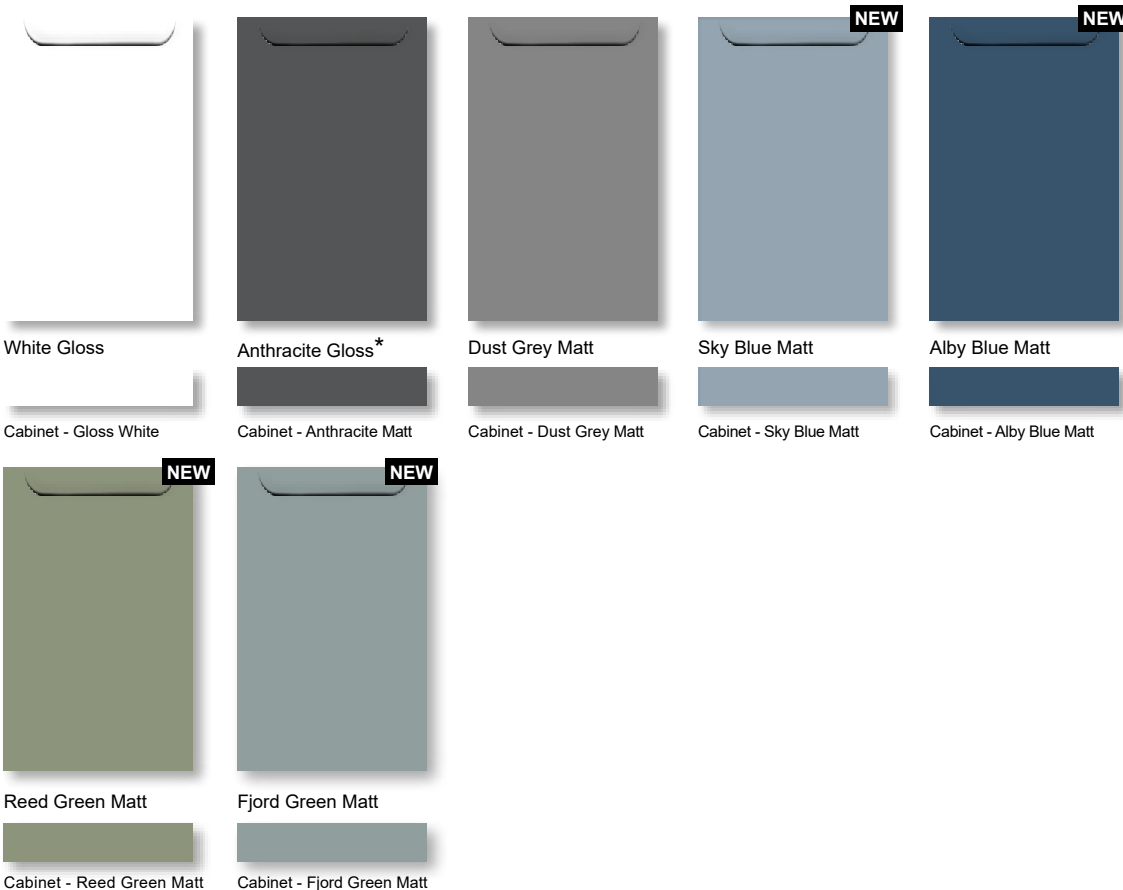

Front Finish	Foil Wrapped Doors
Front Style	Slab / Integral Pull Handle / Shaker
Thickness	18mm
Construction	MDF Core
Edge Detail	2mm radius Finish
Front Reverse	Matching colour
Cabinet Finish (Shown below front colour)	MFC co-ordinated Interior / Exterior with white matt back panel

*For Anthracite Gloss an MFC co-ordinated gloss cabinet is not available. Please note, an Anthracite Matt cabinet will be supplied.

Foil Pull Handle Doors

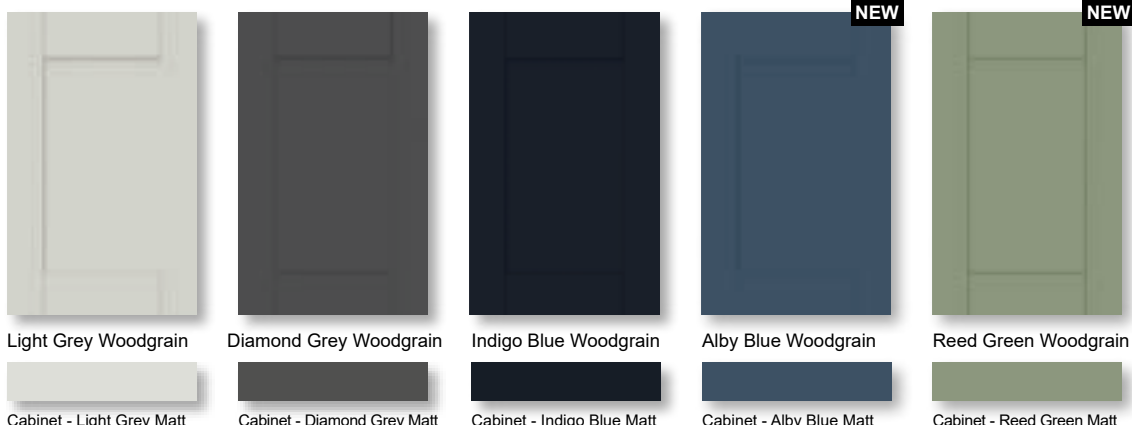

Integral Pull Handle door in gloss & matt plain foil finishes with sharp radius edge.

Please note: Due to photographic & printing processes some colours may not be a true representation of the product. Please see sample for actual colour.

RANGE FRONT & CABINET FINISHES

Foil Shaker Doors Traditional Shaker foil wrapped door with feature joints in a matt woodgrain finish.

MFC Co-ordinated Cabinet Finishes

Examples of MFC Cabinet

Stand Alone cabinet

Our MFC co-ordinated cabinet finishes are illustrated above and offer a matching interior & exterior finish, avoiding the need for additional costs of plant-on side panels.

Please note that our co-ordinated cabinets are supplied in an MFC material which is a close but not exact finish to the foil door front material. Samples can be provided on request.

'Side to Floor' Option for Plinth Line Cabinets

Plinth Line cabinet with left-hand option 'Side to Floor' gable side - STFL

If a 'Side to Floor' gable is required to suit a Plinth Line cabinet, simply add the code below to the cabinet when ordering. This option is £35 per gable side.

STFL = Side to Floor LEFT gable
STFR = Side to Floor RIGHT gable

RANGE FRONT & CABINET FINISHES

CABINET FEATURES

MFC Cabinet Features

- There are three stunning door styles to choose from in 29 finishes with co-ordinated cabinet colours.
- Planning your bathroom couldn't be easier with an extensive selection of cabinet widths available. These range between 150mm to 900mm in eleven different widths and three standard fitted cabinet depths, 220, 320 & 520mm.
- We also offer our Modular basin cabinets Simplicity Plus 435mm deep and Quadro in 380 and 450 depths.
- We offer an extensive range of 34 worktops from laminate to solid surface finishes designed to complement or contrast with our door ranges. Worktops can be factory cut and finished to size or supplied to length for scribing to size on-site.
- All base cabinets are supplied as standard with 200mm adjustable legs to allow for floor mounting using a plinth or wall hung with hanging brackets fitted for a contemporary look. Plinths must be ordered separately.
- The bathroom can also be personalised by choosing from a wide range of attractive handles, lighting solutions, mirrors, ceramic and brassware.
- Handleless 'Push to Open' option is available for all bathroom cabinets, please see handle section for details.
- For full details of the bathroom cabinet range and dimension specifications, please refer to the planning and ordering section of this guide.
- As you would expect all our cabinets are assembled to order, hand finished and inspected before despatch and cabinets come with a five year manufacturer's guarantee.

- 1 Traditional methods of glue and dowel construction supplied factory assembled for quick and easy installation.
- 2 Rigid 18mm MFC colour co-ordinated cabinets are available to suit all door front finishes offered.
- 3 8mm solid cabinet backs in a white matt finish. All basin cabinets have screwed fixed back panels. This allows for easier access for plumbing installation if required.
- 4 All metal 110° three way fully adjustable clip on hinges with built in soft close offering easy adjustment and removal if required.
- 5 Cabinets are handed to avoid unsightly drilling holes.
- 6 All exposed cabinet edges are finished in ABS edging for a robust edge.
- 7 Stylish anthracite finish slim metal drawer boxes with soft close full extension runners and solid 16mm co-ordinated bases for strength and stability.
- 8 All plinth style cabinets are supplied inclusive with 200mm adjustable legs as standard and wall brackets for wall mounting if required.
- 9 Wall cabinets fitted with fully adjustable concealed hanging brackets.
- 10 All wall cabinets are supplied with clear glass middle shelves as standard. Base cabinets are subject to a surcharge for glass option middle shelves.
- 11 Inclusive Handles or 'Push to Open' doors are included in the unit price.
- 12 'Push to Open drawers' and 'Premium' handles are subject to a surcharge.
- 13 When ordering cabinets with a combined semi-recessed basin (on the same order) the fascias are pre-cut and sealed to suit the basin.
- 14 Laminate and Solid surface worktops can be factory cut and finished to size or supplied to length for scribing to size on-site.
- 15 All cabinets are made to order, assembled and hand finished in the UK. Cabinets are covered by a five year manufacturer's guarantee.
- 16 Guarantee details for all non furniture items can be provided on request. Please note: Soft close systems are removed from doors and drawers when the 'HANDLELESS' push to open option is ordered.

Push to Open Drawers allows the handleless operation of drawers.

CODE: HANDLELESS
 Handleless Cabinet drawer option is subject to a surcharge. When this option is ordered all cabinets will be supplied fitted with push to open fittings.

Cabinet Symbols

Throughout this product guide the symbols detailed below are used to aid reference for ease of use.

Plinth or Wall Mounted Cabinets

These cabinets are supplied with 200mm legs (loose) and wall hanging brackets fitted as standard. Allowing for either fitted plinth (supplied separately) or wall hanging as illustrated.

Wall Hung Cabinets

Fitted only with hanging brackets for a fully suspended modular look.

Stand Alone Cabinets

Full height side panels with a plinth pre-fitted to each cabinet so there is no need for additional plinth.

Side to Floor Cabinets

Plinth line cabinets can be fitted with full height side panels for a fully fitted look.

Basin Symbols

Fitted Inset Sit-On

These basins sit within the cabinet

Sit-On

These basins sit on the cabinet

Semi Recess

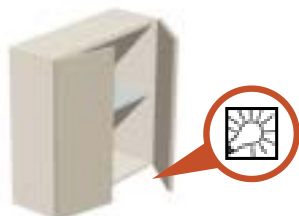

These basins sit in semi recess cabinets

Fitted Cabinet Lighting Symbol

Factory Prepared Inset Lights

Cabinets indicated with this symbol can be factory machined and prepared to take inset lights. For further details please see the lighting & accessories section of this guide.

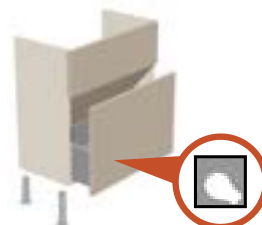

Illuminated Drawer Symbol

Factory Fitted Drawer Lights

Cabinets indicated with this symbol can be fitted with battery powered light fittings to illuminate drawer contents automatically on the opening of the drawer. For further details please see the drawer box options page.

Six Simple Steps to Ordering

Choose your door front style and finish

1

The cabinet colour supplied will co-ordinate with the door front finish

Choose your handle or push to open for handleless option

4

Specify plinth selection. Choice available of MFC cabinet colour or door front finish

2

Choose your basin, tap style and any accessories including mirrors & lighting

5

Choose your worktop material and finish

3

List your requirements detailing cabinet codes, 'Side to Floor' requirements, sizes and handing

6

Planning & Design

CAD Design Software

Visualise and plan your bathroom designs using the Trend Bathrooms furniture catalogue available on Virtual Worlds, EQ, Smart Systems, Articaad and Tru Blue. We work closely with our software provider partners to keep our catalogue up to date on their platforms, in order to make it as easy as possible for our retail partners to present designs to their customers and to prepare quotations using our latest product information and prices.

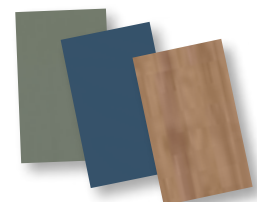

Free Sample Swatch Service

Sample Swatches

Choosing the perfect finish for your bathroom furniture is never an easy choice, and so we encourage our customers to take advantage of our sample swatch service to order up to five FREE colour swatches to be delivered to your address.

Simply email: info@trendbathrooms.co.uk or call our customer support team on 0121 706 5750 with the details of the swatch colours you require. We encourage you to take advantage of this service as photographic and printing processes for some colours may not be a true reflection of the actual product in natural light.

Swatch samples 140mm x 100mm

DRAWER BOX OPTIONS

Full Drawer

As part of our commitment to quality, our drawer boxes offer many premium features. In a sleek minimalist anthracite metal finish with no cover caps or access holes. Constructed with solid 16mm co-ordinated bases and metal backs for strength and stability with soft close full extension runners.

Drawer heights of 101mm and 139 mm for standard drawers, and 187mm for deep drawers offering maximum storage height. Drawerboxes can be adjusted both vertically and horizontally, with a third tilt adjustment for maximum alignment.

Please note:
Drawers cannot be retrofitted for the 'Push to Open' option. If required please specify at point of order.

Shaped 'U' Waste-Guard Drawer

Our range of basin cabinets can be ordered with full drawers or with U-guarded drawers to allow plumbing access.

Look out for the following letters at the end of the unit codes when ordering basin units with drawers to ensure the correct drawer type is ordered:

Basin Deep Drawer Cabinets

- 'F' = One Deep Full Drawer
- 'G' = One Deep Shaped 'U' Waste-Guard Drawer

Basin Two Drawer Cabinets

- 'GF' = One Shaped 'U' Waste-Guard Top Drawer
One Full Bottom Drawer
- 'G' = Two Shaped 'U' Waste-Guard Drawers

Please note: illuminated Drawer light fittings cannot be fitted to Shaped 'U' Waste-Guard Drawers.

Illuminated Drawer

Battery powered light fittings are available to illuminate drawer contents automatically on the opening of the drawer. When ordered these are supplied factory fitted on both drawer sides and have a re-chargeable battery to the rear of each drawer. To order use the code - **D1 - D2 - D3** when ordering a suitable drawer unit from our range.

The ILLUMINATED drawer box option is charge at £129 per drawer.

Icon signifies the availability of the illuminated drawers for each unit.

Please note that due to the positioning of the re-chargeable battery, only full drawers are suitable for this upgrade and this option is not offered for drawers with a Shaped 'U' Waste-Guard.

Push to Open

Push to Open Cabinet Doors
Handleless Cabinet door option is inclusive.

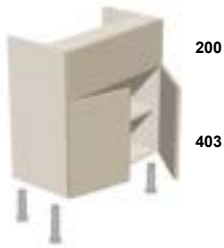

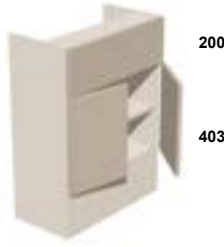

Push to Open Cabinet Doors are inclusive and will have the mechanism surface fitted to the gable side for one door units or to the middle shelf for two door units. Please note that when the Push to Open option is ordered, the soft close systems and front door buffers are removed.

Push to Open Cabinet Drawers
Handleless Cabinet drawer option is subject to a surcharge.

Push to Open Cabinet Drawers are subject to a surcharge of £45 per drawer. Special push to open drawer box mechanism will be supplied. Please note that when the Push to Open option is ordered, the soft close systems and front door buffers are removed.

Worktop Planning Details

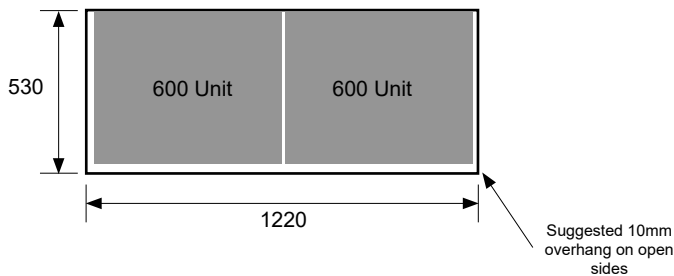

- Worktops are supplied in 3 depths, 230, 330 & 530mm deep and are priced per 100mm.
- We recommend a minimum 10mm overhang is added to open sides to match the front overhang.
- Please specify the length you require and any edging or polishing depending on the worktop ordered.
- We also recommend allowing a 10mm overhang when scribing the worktop to a wall.
- Please see below examples of the most common worktop configurations for your guidance.
- Please use the worktop order form when ordering worktops, especially for Fusion worktops.
- Please show all cabinets on your plan so we can check for any discrepancies.

Handling note:

When handling longer worktops please carry vertically with two people and always store on a flat surface.

Please see below examples of the most common worktop configurations for your guidance.

CONTINUOUS WORKTOP PLANNING EXAMPLE

Laminate

Order Code Example

- 1 x W53/22-1220 (1220 x 530 Worktop)
- 2 x WER 22 (Loose Laminate Edging)

(If factory finished edge is required order code WFE)

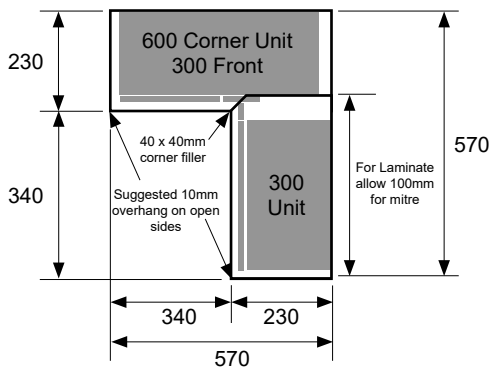

Fusion

Order Code Example 12mm thick

- 1 x WFC53/12-1220 (1220 x 530 Worktop)

Finished with polished edges as standard

'L' SHAPED WORKTOP PLANNING EXAMPLE

Laminate

Order Code Example

- 1 x W23/22-670 (670 x 230 Worktop)
- 1 x W23/22-340 (340 x 230 Worktop)
- 1 x WER 22 (Laminate Edging)

(Please allow an additional 100mm for the mitre joint to the 340 length.)

(If a 'Butt and Scribe' joint is required, please order with code WT.J)

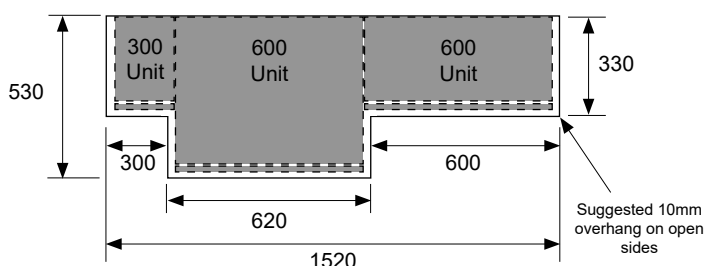

Fusion

Order Code Example 12mm thick

- 1 x WFC23/12-670 (670 x 230 Worktop)
- 1 x WFC23/12-340 (340 x 230 Worktop)
- 1 x FTJ (Butt Joint)

For corner planning details please see corner planning page.

BREAKFRONT WORKTOP PLANNING EXAMPLE

Fusion

Order Code Example 20mm thick

- 1 x WFC53/20-1520 (1520 x 530 Worktop)
- 2 x FCBF (Breakfront)

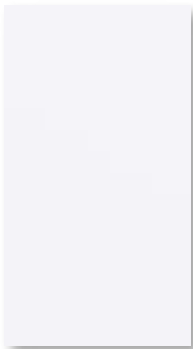

Laminate 22mm
(4mm Radius edged top & bottom)

Laminate 22mm

Our laminate worktops are made from high grade laminate material bonded to a chipboard substrate core that is impact resistant and water repellent. Supplied 22mm thick with 4mm radius edges top and bottom to give a slim square effect leading edge. Available in 15 carefully chosen finishes to complement our range of front colours from stone through to marble effects in matt and gloss.

FUSION FITTING ACCESSORIES

CARE KIT

A care kit contains a cleaner and buffer cloths ideal for maintaining Fusion worktops.

FCK - £85

INSTALLATION KIT

An Installation kit contains various supplies to aid jointing and fixing Fusion worktops during the fitting process.

FJK - £85

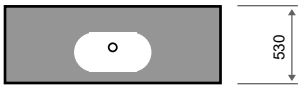

Please note: when ordering care and installation kits, please specify chosen worktop finish.

Fusion Integral Basins

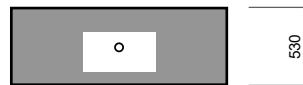

NEW

Create a statement with an undermounted basin built into your Fusion worktop. We offer a choice of either oval or square basins, both in a white gloss finish, with generous bowl sizes and the option to plan as either a single basin or double. The worktops are designed with a slight over-hang so that the basin blends into the worktop.

Integral Basin Planning Details

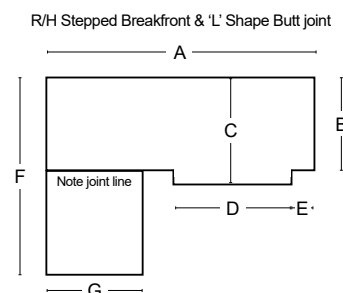

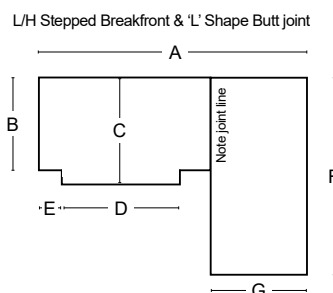

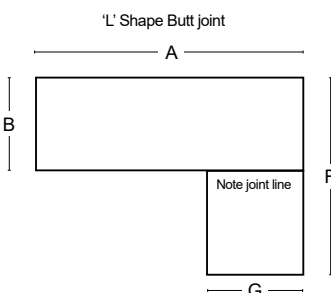

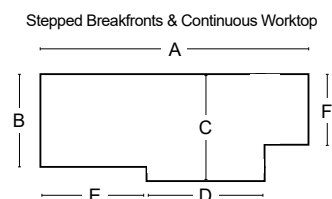

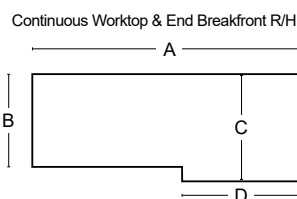

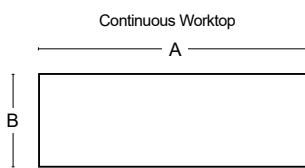

- When integral basins are ordered the worktop will be charged at the 530mm deep price to suit basin depth.
- The integral basins will be charged separately and in addition to the worktop.
- Fusion basins are supplied in a white gloss finish only.
- Multiple basins can be fitted in Fusion worktops, subject to the minimum basin cabinet width and worktop length.
- Please specify the centre of the integral basin tap hole from left hand end of the worktop.
- Integral basin orders require a signed worktop order plan before manufacturing can commence.
- Please allow 7 working days for Fusion integral basin orders

WORKTOP DIMENSION PLANNING EXAMPLES

Typical examples shown as a guide to possible uses of continuous, stepped breakfront and 'L' Shape butt joint combinations. When ordering worktops, please provide a plan to allow us to check for any discrepancies as we cannot be held responsible for ordering errors.

Satin Brass
OR S SB - £24
Black Matt
OR S BM - £24

Only suitable for Simplicity Plus basins.
Overall dimensions 25mm dia.

CONCEALED CISTERN SPECIFICATIONS

All WC units supplied with a concealed cistern are provided with one of three models of cistern from a market-leading supplier. These cisterns are perfect for use in all domestic applications and can be used with confidence in our Plinth Line or Stand Alone furniture. A selection of pushbuttons are available to provide the perfect finishing touch to any project. The range of concealed cisterns has been chosen carefully specifically for use in our bathroom furniture.

- Our concealed WC cisterns are manufactured in the UK and are fully compliant with the latest water conservation regulations.
- The cisterns have dual flush technology and are factory set for 6ltr full or 4ltr reduced flush but can be adjusted to reduce water usage further to 5/3ltr or 4/2.6ltr flush settings and are pneumatically operated.
- All of our 'cistern included' WC cabinets are factory prepared to accept our concealed cisterns.
- Cisterns are supplied loose for installation on site which are easy to install with push fit plumbing fittings.
- Six control flush button options are available.
- All our WC cabinets have removable front panels offering easy access for maintenance of the cistern.
- Cisterns are fitted with an insulation jacket to reduce noise and condensation (except for the Compact Cistern).
- Flush buttons are included in the cistern price

Our Range of our Concealed Cisterns

We offer three different models of cistern. Please order the correct cistern for the unit type and toilet pan type that you will be using. Please contact our Sales Office on 0121 706 5750 if you require additional information or support.

Standard Cistern

All WC units supplied 'with cisterns' are suitable for the 'Standard' Cistern with the exceptions of (1) when a 'Comfort Height' pan is to be used – see Miniflo Cistern below; or (2) 400mm wide WC units – see Compact Cistern below.

Dimensions: 460w x 369h x 125d (440 to water outlet from top face min.)
Fitting specifications can be supplied on request for installation planning.

Miniflo Cistern

When using a 'Comfort Height' pan, the Miniflo cistern must be ordered to accommodate the increased height of the pan water inlet. The Miniflo cistern is shorter than the 'Standard' cistern and this allows a higher coupling to the water inlet of the pan. Please note that the Miniflo Cistern is not suitable for 400mm or 500mm wide by 220mm deep units due to the dimensions of the Miniflo Cistern.

Dimensions: 411w x 276h x 131d (366 to water outlet from top face min.)

Compact Cistern

When using a 400mm wide WC unit, the Compact Cistern must be ordered as they are specifically designed for 400 wide WC units and are narrower than Standard or Miniflo Cisterns.

Dimensions: 365w x 346h x 153d (436 to water outlet from top face min)

Fitting specifications can be supplied on request for installation planning.
Please note: The flush button is included in the cistern price.

The Environment

The cisterns that we sell are all registered and approved under the European Water Label scheme. The European Water Label scheme is a voluntary labelling scheme for water-using bathroom products and the scheme's primary role is to educate the consumer on water use, so they can make informed purchasing decisions on bathroom products. Our cisterns are also approved by the UK's Water Regulations Approval Scheme ("WRAS"). The purpose of WRAS is to contribute to the protection of public health by preventing contamination of public water supplies and encouraging the efficient use of water by promoting and facilitating compliance with the Water Supply (Water Fittings) Regulations and Byelaw. The cisterns also support the Code for Sustainable Homes and the Building Research Establishment's Environmental Assessment Method ("BREEAM").

Dimensioning

Description Example: 154h x 122d x 82t x 180c (0.1 bar).
Description shows: Overall height x Tap centre depth x Outlet height x Fixing Centres (Minimum Operating Pressure).
Please note that all our taps have ceramic cartridge internals and are suitable for high and low water pressures.

Handle Planning

- All handles are supplied loose.
- 'Inclusive' handles are included within the stated cabinet price.
- Extra 'Inclusive' handles are charged at £7 each.
- If a premium handle is chosen the 'Surcharge' price difference detailed will be applied per handle.
- Push to open (HANDLELESS) option is supplied factory fitted, please quote 'HANDLELESS' when ordering.
- Some handles only fit vertically on fronts, please check dimensions when ordering to ensure a suitable fit.
- Handle No. 619 is supplied as standard on Midi/Tall Mirrored Door cabinets.

Push to Open

Push to Open Cabinet Doors
Handleless Cabinet door option is inclusive.

CODE: HANDLELESS

£45 per drawer surcharge
Please note when the handleless option is ordered the soft close systems are removed.
Please note: due to the offset required for optimal operation, handleless drawer will project 3mm further forward than non-handleless drawers.

Push to Open Cabinet Drawers
Handleless Cabinet drawer option is subject to a surcharge.

LIGHTING SOLUTIONS

The bathroom is one room in the house where the need for good lighting is paramount but in addition lighting can also be used to create mood and ambience. Lighting systems need to achieve this whilst also meeting the highest safety standards. Illustrated below are the key fittings that go to make up our bathroom lighting range from cabinet downlighting to illuminated wall mirrors.

①

SMALLY RECESS
MOUNTED DOWNLIGHT
(Requires drilling on site)

②

MIRRORS
ILLUMINATED & PLAIN

③

SMALLY SURFACE
MOUNTED DOWNLIGHT

④

OVER MOUNTED
MIRROR / CABINET LIGHTS
(Not illustrated)

⑤

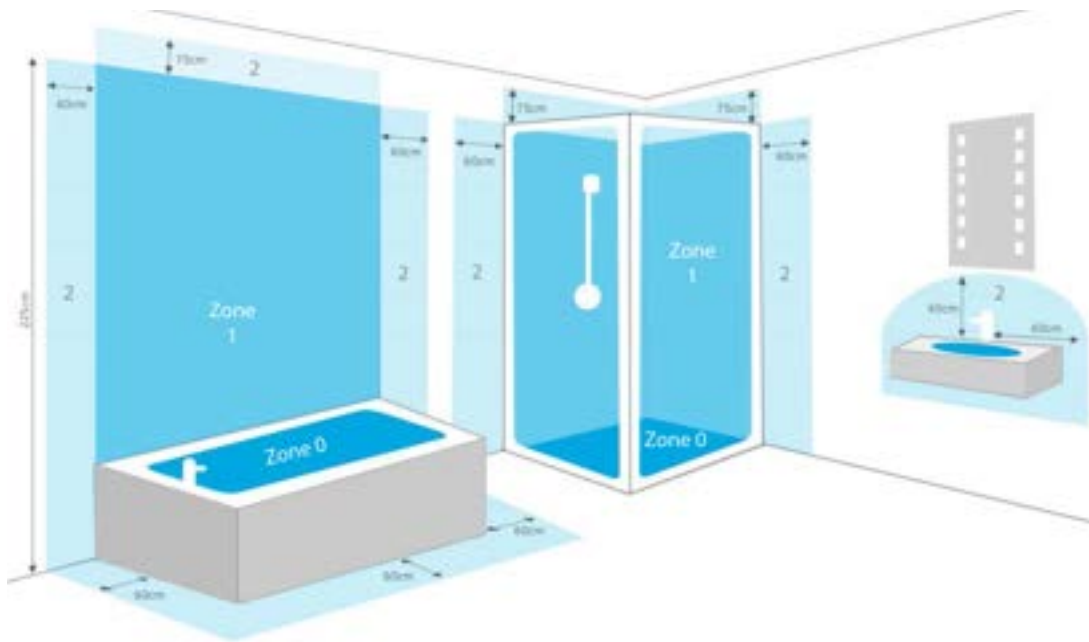

PLINTH / BATH PANEL
LIGHTING KIT

⑥

FLEXIBLE CABINET
STRIP LIGHTING

ZONES 0 1 2

Zone 0

Inside the bath or shower. Must be SELV type fittings installed. (Separated Extra Low Voltage -12v Max) due to water submersion. Minimum rating IP67

Zone 1

225cm above the bath or shower. If there is a likelihood of water jets being used for cleaning IP 67 rated fittings must be used as IP44 is unsuitable. Minimum rating IP44

Zone 2

The area stretching to 60cm outside the bath, shower or water outlet of basin. If there is a likelihood of water jets being used for cleaning IP 67 rated fittings must be used as IP44 is unsuitable. Minimum rating IP44

OUTSIDE ZONES - Anywhere outside zones 0, 1 & 2, where water jets are not used for cleaning purposes, the general rules of BS7671 apply.

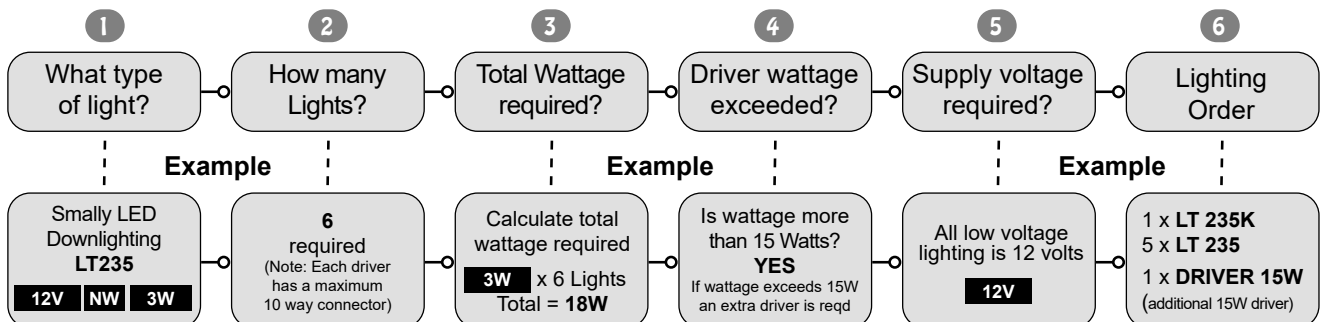

Safety

The latest IEE wiring regulations have identified specific zones within the bathroom to indicate which type of electrical equipment can be installed. The diagram above shows the three bathroom zones 0, 1 and 2. With this in mind our low voltage lighting fittings have a minimum rating of IP44. We recommend that you use a registered electrician to carry out any electrical installation.

Each light uses the following icon examples to provide information and to help calculate driver requirements.

ORDERING YOUR LIGHTING SYSTEM

SMALLY LED SURFACE MOUNTED DOWNLIGHT 2

12V | NW | IP44

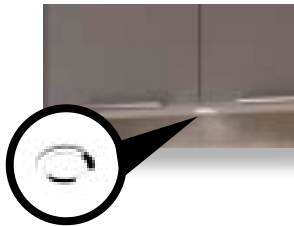

Chrome finish downlight
Supplied with stainless bezel
Surface mounted

Surface mounted

Recess mounted

Stainless bezel can be removed for recess installation
(57mm hole x 12mm deep required to be routed on site to install)

Kit supplied with
One 3 Watt SMALLY light
One 15 Watt driver
Driver includes 2m mains lead,
and 10 way connector block on
0.5m connecting lead.

Kit (Inc Driver)
LT 235K £108

Extra Light
LT 235 £69

Order additional lights
separately (up to 5 per driver)

Supplied with 2 metre cable, 74.5dia x 19d. All kits are supplied with a 15 watt driver for up to 5 lights. LED operating life of upto 50,000 hours.

EXTRA DRIVER 2

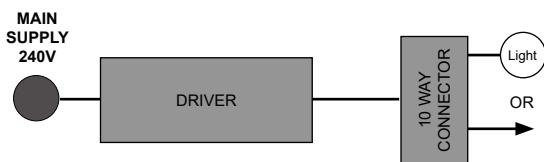

12Vdc 15 Watt

240V | IP44

Driver suitable for 'SMALLY'
light fittings.
Supplied without plug for
hard wiring into mains
supply or light switch
10 Way connector fitted for
plugging lights directly into

Also suitable for use with
TOUCH ME switch for
dimming or on/off control

DRIVER 15W - £40

Individual driver compatible for 12v SMALLY lights.
Supplied with 2 metre mains lead & 10 way connector with 1 metre lead.
Do not exceed maximum capacity of 15 watts. 15 Watt driver + 3Watt = 5 lights.

TOUCH ME SWITCH 2

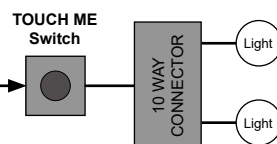

Touch Sensitive Switch

12V | IP44

Touch sensitive externally
fitted light switch with
dimming control requires
30mm recessed hole
In aluminium finish for
Smally lights only

Can be fitted to the outside
of cabinet in a convenient
location such as cabinet side.
Please allow for low voltage
wiring to be accommodated
inside the cabinet safely

TOUCH SWITCH - £66

Touch sensitive operation. Extended touch allows light intensity adjustment.
Requires 30mm hole for fitting 10mm deep. Gable fitting recommended.
Supplied with 2 metre cabling between driver connector and TOUCH ME switch.
Do not exceed maximum capacity of 15 watts. 15 Watt driver + 3Watt = 5 lights.

FLEXIBLE LED STRIP LIGHT 1 2

12V | NW | IP44

White finish natural white LED strip light kit in a choice of three lengths.

Kit includes self adhesive strip light in 0.5m, 1m or 2m lengths (trimmable). Driver supplied with 2m 240V supply lead and 2m driver connecting lead to strip light.

Additional strip lights consist of:
Strip light and driver connecting lead.

Note: These lights are NOT compatible with TOUCH ME switch

Light Kit 500mm
LT 500FK £90

Additional Strip Light & cable
LT 500 £50

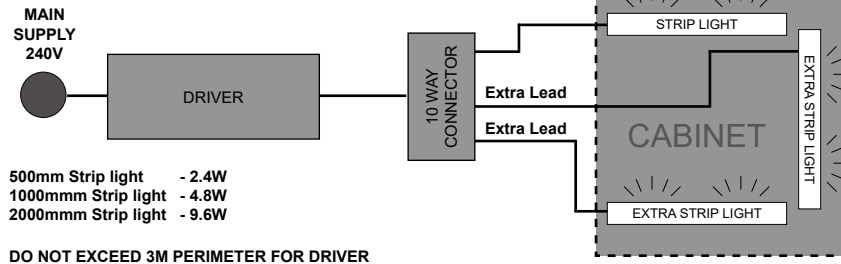

Light Kit 1000mm
LT 1000FK £108

Additional Strip Light & cable
LT 1000 £69

Light Kit 2000mm
LT 2000FK £153

Additional Strip Light & cable
LT 2000 £112

- The strip light kit is supplied in a light length of choice and can be trimmed in 50mm increments.
- Please note, once cut, the trimmed end of the light cannot be reconnected.
- Ensure the correct end is trimmed to maintain connection to the connecting lead from the driver.
- Self adhesive backing allows fitting of lights under cabinets or ledges.
- For additional edges around a unit, order an additional strip light and connecting lead to suit dimensions.

Dimensions: 8w x 4h supplied with 2m connecting lead. All kits are supplied with a 15 watt driver. Light is trimmable at 50mm intervals with a clear self adhesive back. Extension cable provides additional 2 metres when connected. LED operating life of up to 50,000 hours.

EXTRA DRIVER 240V IP44
12Vdc 15 Watt

Compatible for 12v strip lights
Supplied with 2 metre mains lead & 9 way connector with 1 metre lead
Do not exceed maximum capacity of 15 watts

Max 3m perimeter

DRIVER 15W - £40

EXTRA DRIVER CONNECTING LEAD

2mtr connecting lead from driver to strip light

LT 155 £65

5 Light kit containing 30mm diameter, low profile round lights supplied with 0.5 metre daisychain cables. Kit also includes a suitable 5 Watt driver fitted with 1.5m 240v mains cable. Light fitting hole diameter 22mm.

LED Factory Prepared Cabinet Inset Lights

Throughout this product guide cabinets indicated with this symbol can be factory machined and prepared to take inset lights. By selecting this lighting option a fully integrated flush fitted look can be achieved saving both time and on site installation costs. Please see below for full details

Fitted Cabinet Lighting 2

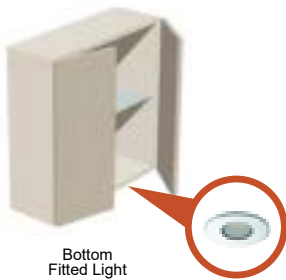

12V | NW | IP44

1. Available for wall, dresser, tall and midi cabinets where indicated by the lighting symbol.
2. Cabinets are factory prepared in 3 options detailed below to accept 1.5 Watt inset lights.
3. The lighting option will be added to the cabinet price and be supplied loose for installing on site.
4. Cabinet lights are supplied in a Natural White light with a 30mm flat chrome bezel to produce a neat fitted look.
5. Cabinet lights are supplied with a 2 metre lead for connection to the driver.
6. The driver is not included in the price and must be ordered separately.
7. The driver will power up to 4 inset lights, please ensure when planning that the driver can be located within 2m of all the lights, or order additional drivers for different areas of the bathroom.
8. Please note cabinet inset lights are not compatible with use for the TOUCH ME switch and the driver must be wired and switched via the mains supply.

Please note: This Product matrix is shown as a guide only to the range as not all products are available in all ranges, for full details please refer to the product guide for cabinet widths and depths available.

Our Arco Winged basins offer the flexibility to create bespoke custom length basin designs. Available 1210mm and 1610mm long (left or right hand) in a single winged basin or 2010mm long in a double winged version.

Winged basins can be cut to size on site if you do not require a finished polished edge. Please note if a polished finished edge is required this must be specified when ordering the basin as this can only be factory produced and is not possible on site.

ROUND ARCO WING BASIN 1610 WIDE
Mineral Cast Semi-Recess
to suit 320 Deep Cabinets

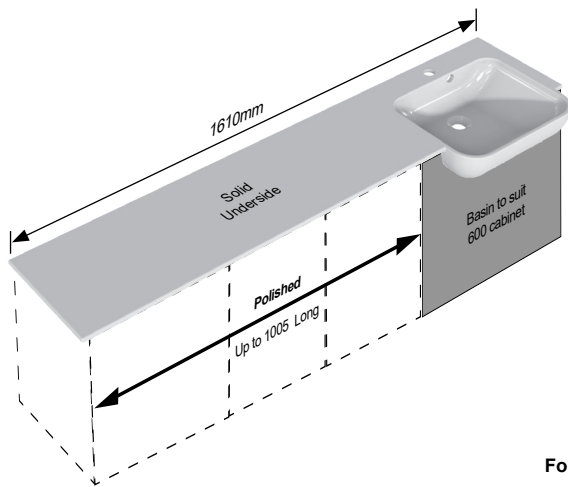

The Arco Round winged basins 1610 can only be cut to a finished length of 905/915, 1205/1215 or 1595/1605 if a polished edge is required due to its ribbed wing construction underside. If a polished edge is not required it can be cut to any length from 700mm to 1600mm long.

For Arco wing polished edge order details, see Mineral cast basin section.

SQUARE ARCO WING BASIN 1610 WIDE
Mineral Cast Semi-Recess
to suit 320 Deep Cabinets

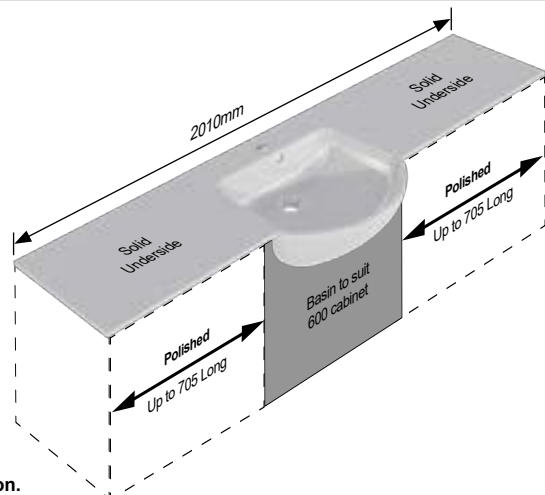

The Arco Square winged 1610 basin can be cut to any length with a polished edge from 700 to 1600mm due to its solid flat wing construction underside.

For Arco wing polished edge order details, see Mineral cast basin section.

ROUND ARCO DOUBLE WING BASIN 2010 WIDE
Mineral Cast Semi-Recess
to suit 320 Deep Cabinets

The Arco Round Double winged 2010 basin can be cut to any length with a polished edge as detailed due to its solid wing construction underside.

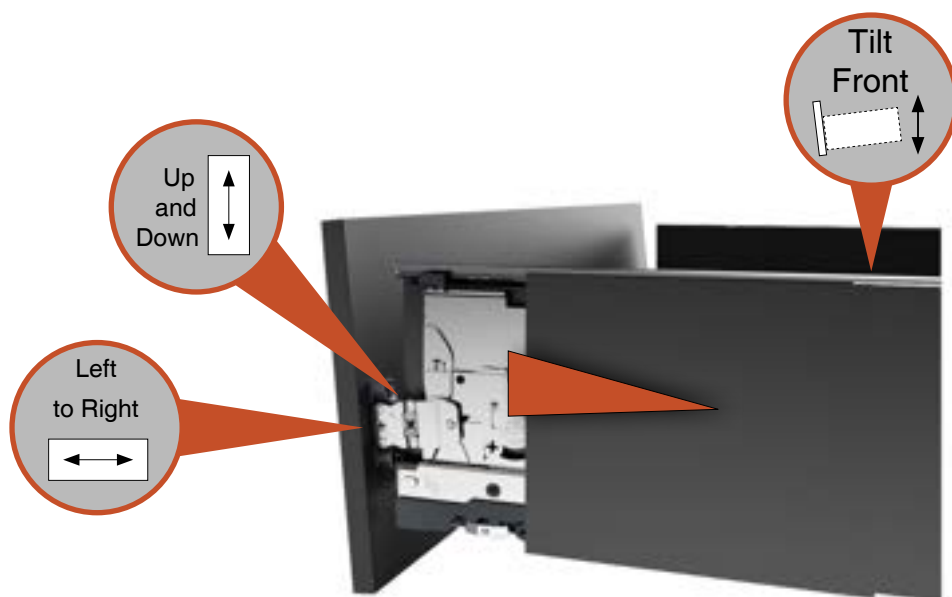

For Arco wing polished edge order details, see Mineral cast basin section.

As part of our commitment to use high quality fittings in all of our furniture, our drawer boxes come with a number of premium features including:

- A sleek minimalist design with no cover caps or access holes in a beautiful anthracite metallic finish.
 - Increased storage depth to make maximum use of the space within the cabinet in three drawer heights.
 - A smooth full extension runner with a silent gentle opening and soft closing action.
 - The ability to make easy precise adjustment from not only horizontal and vertical axis, but also in terms of drawer tilt for increased alignment adjustment.
 - Our drawer boxes combine beautiful appearance with functional design and spacious storage and their market leading manufacturing quality mean that the drawerbox will serve you for years without issue.
-
- Access to adjustment is through the drawerbox side profile that slides back to reveal adjustment for the horizontal and vertical as well as drawer front removal.
 - Combined with solid bases all of the above features mean that you can really appreciate the difference when using the drawers in our furniture.

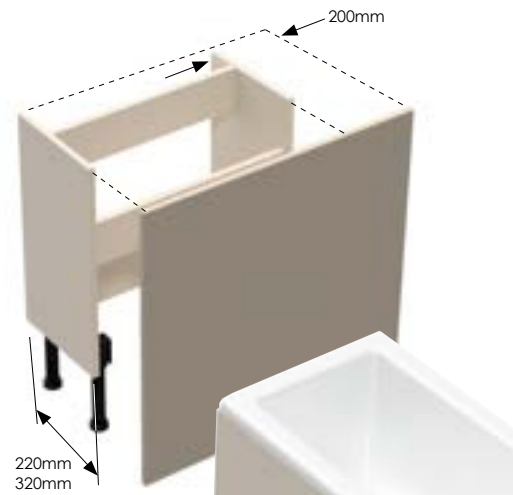

Bath Bulkhead Base Unit

Our revised Bath Bulkhead base cabinet offers more allowance for soil pipe and drainage services by incorporating an oversize single panel that can be scribed to size on site.

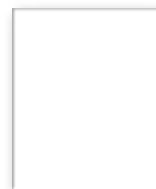

The front panel is clipped on allowing for ease of access during installation until the bath is sealed to the face.

Available in 220 and 320 deep options with a 200mm leg height there is plenty of room to hide unwanted pipework.

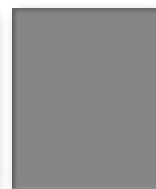

Plinth End Caps

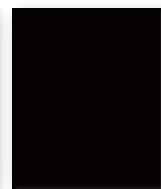

These metal plinth end caps provide a robust and attractive finish for plinth joints. The joint will require mitring before fitting. Please select the colour to complement your plinth choice at point of order.

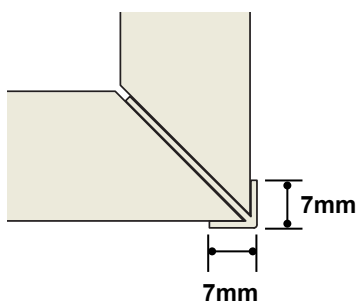

White Matt

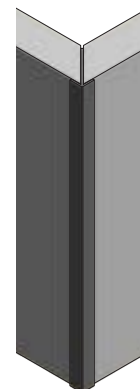

Grey Brushed

Black Brushed

Supplied packed in pairs with a length of double side tape to fix to the mitred plinth ends. Colour choice must be advised at time of ordering. Metallic end caps are not included with plinth.

Bathroom Door Care Instructions

Cleaning

We recommend the following door cleaning instructions for all our doors. Please ensure your customer is given a copy of these care instructions

- Clean the doors using only a solution of 95% luke warm water with no more than 5% soap
 - Do NOT spray anything onto your doors – this includes the solution recommended above
 - Use a clean damp (not wet) cloth
 - Dry with a soft clean cloth.
 - Do not allow liquids to seep into joints of doors and wipe any spillages immediately.
- Do not use any of the products listed below to clean the door as it may mark and damage the surface:
 - Wax furniture polish
 - Bleach / chlorine based cleaning products
 - Abrasive cleaners
 - Solvents
 - Multi-purpose cleaners
 - Alcohol based cleaners
 - Ammonia or any other similar products
 - Scouring pads or abrasive cloths

Environmental Information

Please be aware, localised or intense heat/steam can damage fascias in close proximity to your bathroom fascias and should be avoided. Doors should not be exposed to extreme temperature changes. Due to their manufacturing process foil doors must not be exposed to temperatures above 70° C as this may cause damage to the door's surface.

Installer Care Instructions

Before commencing any work on doors or accessories, i.e. hinge boring, handle installation, cutting etc. please inspect the product thoroughly, making sure it is free from scratches or blemishes.

Once the product has been altered in any way from the state it was supplied it cannot be replaced.

Care When Fitting

Always handle doors and drawers with care to avoid damage. When fitting hinges and handles to doors and drawers please ensure all fascias are placed on a clean and smooth cushioned surface to avoid scratches to the product. If the door fronts are removed from the cabinets during fitting/installation please ensure they are not placed directly on a hard floor but are stored on a cushioned surface and protective wrapping is placed between fascias to protect them from marking the surfaces.

Foil / Vinyl / Over Lacquered Doors

Some doors may have a protective film on the face. Direct exposure to sunlight may cause an adverse effect therefore it is recommended you remove this film as soon as possible after fitting. Due to their manufacturing process foil doors must not be exposed to temperatures above 70° C as this may cause damage to the door's surface.

Door Colour and UV Light

Any door range, whether it be over lacquered, foil wrapped or painted will change colour over time due to natural UV exposure. Please be aware of this natural occurrence if replacing doors previously installed.

Timber / Veneer / Hand Painted Doors

Timber is a natural product; therefore colour, grain structure and features will differ from door to door.

Timber and veneer doors have a unique and natural characteristic and because of this colours may change over time when exposed to sunlight. Please be aware of this natural colour change when ordering additional doors to suit a previous installation.

We also recommend you change your timber door samples every six months due to this reason.

Timber can be prone to expansion and shrinkage based upon the environment which it is installed in. Timber and veneered doors are affected by moisture; if there is too much moisture in the environment it can have an adverse effect on the door over a period of time and it may lead to timber expanding, especially during winter periods. Excess moisture may also be found in new builds and properties where renovation work has been carried out; examples include plastering or floor screeding, etc. In the summer months when the environment is drier, shrinkage may occur in the timber.

This natural movement of timber may cause the surface finish of the timber / veneered door (i.e. painted, varnished, lacquered finishes, etc) to move with the timber. If this occurs then there is a chance that it may result in shrinkage and hairline cracks appearing on the door.

Please check the moisture content of a room before installing timber or veneer doors. The above also applies to hand painted doors.

Environmental Information

Newly plastered rooms, plaster repairs, floor screeding, renovations, etc should be left to dry out thoroughly before installation of doors, whatever their material.

Terms & Conditions Before You Buy

Colour Reproductions

Due to the photographic and printing processes some colours in our printed or online material may not be a 100% true representation of the colour of the products in natural light. Also, much of our product imagery is computer generated. We therefore strongly recommend that you take advantage of our sample swatch service to order up to five FREE samples in order to confirm your colour selection before placing an order.

Materials and Dimensions

When planning sanitaryware and basins please consider the overall width, depth and rim heights to ensure that they meet your design requirements. All basin dimensions are detailed in this guide and are manufactured within a +/- 5mm tolerance. Due to our policy of continued product development, we reserve the right to alter materials and specifications without prior notice.

Any questions

Our sales team have many years of experience. Please pick up the phone on 0121 706 5750 or email us at info@trendbathrooms.co.uk if you have any questions relating to our products prior to ordering. We are open from 8.30am to 17.00pm, Monday to Friday except Bank Holidays and a period of closure between Christmas Day and the New Year.

What's included

All of our base units are supplied with both adjustable legs and plinth fittings to allow the units to be wall mounted or standing as required.

Changing your mind

Your Trend Bathrooms order is manufactured specifically to your requirements. If there are any items that you have ordered and are no longer required, please let us know as soon as possible so that we can cancel or amend your order before it goes into production. Once manufactured, items that are no longer required will be subject to a 30% re-stocking fee provided that the item is cancelled or returned within 14 days from delivery – subject to compliance with terms (i.) to (iv.) below. Unfortunately, we cannot extend this policy to worktops as they are cut to your required size and therefore cannot be re-sold by us and this means that all worktops are non-returnable and non-refundable once produced. We can only accept items that are no longer required provided that (i.) you make them available for collection as soon as reasonably practicable; (ii.) you return them in their original packaging; (iii.) they have not been fitted in any way and (iv.) they are in a re-saleable condition and have not been damaged or marked.

Looking after your products and installation

Maintenance and Aftercare

Due to the nature of the materials used, bathroom furniture will be adversely affected by water spillage or heavy condensation. To avoid any deterioration in the cabinets or work surfaces it is important to wipe dry any excess moisture. Please note that when cleaning cabinets you should use a cloth dampened with soapy water and should not use abrasive cleaners or solvents. We recommend ensuring adequate ventilation by installing an extractor fan connected to an outside wall to reduce the harmful effects of condensation. This will minimise the risk of damage that can be caused to these products by prolonged exposure to moisture which bathrooms are prone to.

Installation

The installation of our furniture should be carried out in accordance with our fitting instructions. It is important that a waterproof sealant is used to seal any raw edges especially around basins and worktop joints. It is particularly important to seal along bath panels edges both vertically and horizontally.

Electrical Recommendations

If any electrical fittings are to be installed, you must ensure that all installation of any electrical fittings such as lights and shaving sockets are carried out by a qualified electrician and conform with local building regulations. If you are in any doubt, please contact your local council's Building Control office.

How we deal with issues – Our Guarantee, Returns, Refunds & Compensation

All Trend Bathrooms manufactured bathroom furniture is built to the highest quality and our cabinets carry a 5 year guarantee. For full details of our guarantee including exclusions please request a copy by emailing info@trendbathrooms.co.uk. Our supplier manufactured products also have guarantees and warranties provided by the manufacturers and should there be any issues with those products, we will pass the benefit of those guarantees and warranties onto you. Please note that as a consumer you should always start any guarantee or return claim with the retailer from whom you purchased the product. That retailer will then speak with us at Trend Bathrooms to seek to resolve the issue.

Once products have been manufactured or delivered:

- Items that have been manufactured by Trend Bathrooms which are faulty or have defects as a result of the manufacturing process or in Trend transit, will be replaced free of charge – provided that we are notified of the issue within a reasonable period, the item is returned or made available for collection by our driver so that we can review the defect or you provide photographs or evidence as we may reasonably require to ascertain that the issue is as a result of a manufacturing fault or in Trend transit rather than being caused post-delivery. You must return the defective item in order to receive a replacement;
 - Items that have been manufactured by third parties and supplied by Trend Bathrooms which are faulty or have defects, will be replaced free of charge, unless it is reasonably evident that the damage has been caused following delivery, and provided that the item is returned or made available for collection by our driver so that we can review the defect.
- Trend Bathrooms will also speak to the manufacturer to seek to rectify the issue to reduce reoccurrence. You must return the defective item in order to receive a replacement.

If a replacement part is no longer available, the nearest equivalent replacement will be supplied. Our guarantee is limited to a replacement of the defective items supplied and will not cover associated installation costs, consequential loss or damage claims, except at a senior manager's discretion. In order to increase your chances of a successful claim under our guarantee policy – please make sure to take pictures of the defect and provide a description of the issue that you have encountered.

To receive a full version of our terms and conditions, please email info@trendbathrooms.co.uk
